

ADITHYA EKANAYAKE

Software Developer | Information Systems Undergraduate

adithyaekanayake2@gmail.com | github.com/Adithya-Ekanayake | linkedin.com/in/adithya-ekanayake-b38267349

PROFESSIONAL PROFILE

Motivated Information Systems undergraduate and aspiring software engineer with hands-on experience building responsive web interfaces, full-stack applications, and practical developer tools. Strong interest in software engineering, business analysis, data, project management, and AI integration. Currently seeking opportunities to contribute to useful products while continuing to grow through real-world development work.

EDUCATION

BSc (Hons) in Information Systems (Reading) 2024 - Present
Sabaragamuwa University of Sri Lanka, Faculty of Computing | Belihuloya, Sri Lanka
GCE A/L (Physical Stream) 2020 - 2023
Pushpadana Girls' College Kandy | Combined Mathematics, Physics, Chemistry

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, responsive UI design, Framer Motion
Backend and Data: Node.js, Express.js, Spring Boot, MySQL, database design, REST APIs
Tools and Practices: Git, GitHub, VS Code, Postman, Figma, project management, business analysis

FEATURED PROJECTS

EduConnect

React.js, Node.js | Peer-to-peer academic skill sharing platform

- Designed a platform that helps university students share skills and connect with peers.
- Contributed to full-stack application development and practical feature implementation.

MoodCast

JavaScript | AI-powered mood-based daily planner

- Combines journaling, wellness tips, food ordering, and Spotify playlist recommendations in one experience.

Coasty Lanka

JavaScript | Sri Lankan coastal travel explorer

- Built an accessible web experience for discovering beaches and coastal destinations across Sri Lanka.

ADITHYA EKANAYAKE

Software Developer | Full-Stack Development | Information Systems

ADDITIONAL PROJECTS

Student Management System

JavaScript | Academic administration portal

- Developed a portal concept for university student record tracking and academic administration workflows.

DevPulse Dashboard

React.js | Developer activity monitor

- Created a dashboard concept for tracking project tasks and personal developer activity.

PROFESSIONAL DEVELOPMENT

- Continuing to learn complete full-stack project development and deployment workflows.
- Exploring practical AI integration in applications and expanding development tools and programming languages.
- Building knowledge in business analysis, data analysis, advanced databases, and data mining.
- Open to software engineering internships and collaborative development opportunities.

VERIFIED QUALIFICATIONS - 2026

Full-Stack Web Developer

LinkedIn Learning | 2026

- Full-stack web development concepts and practices.

Database for Node.js Developers

LinkedIn Learning | 2026

- Database concepts and their use in Node.js applications.

Front-End Development

Department of Information Technology, University of Moratuwa through CODL | 2026

- Front-end development principles and modern web interfaces.

Introduction to Business Analysis

LinkedIn Learning | 2026

- Business analysis concepts and requirements-focused thinking.

Foundation of Project Management

Department of Information Technology, University of Moratuwa through CODL | 2026

- Foundational project management concepts and practices.
